TREATMENT OF PRISONERS IN FORT DELA-WARE .- What Dr. HANDY knows about it from his own experience is told in his book, "United States

WANTED TO BE HEARD FROM .- If anybody has ever used the thorough and scientific course of treatment recommended by the proprietor of Dr. BAGE'S Catarrh Remedy for the cure of catarrh and has not been perfectly cured, the proprietor (Dr. R. V. PIERCE) would like to hear from that person ; and by addressing him at the World's Dispensary. Buffalo, N. Y., such person, if there be one, will hear of something to his or her advantage, as the doctor is in earnest when he offers \$500 reward for a case of catarrh which he cannot cure, and is perfectly able to pay it if he falls in a single case, as any one may ascertain upon inquiry. The thorough course of treatment referred to and recommended by Dr. PIERCE consists in the use of Dr. SAGE' Catarrh Remedy with Dr. PIERCE'S Nasa Douche, which is the only means by which the fluid can be carried high up and ap plied to all parts of the nasal passages and the chambers connected therewith in which ulcers exist and from which the discharge proceeds. In addition to this thorough application of the Remedy, which should always be used warm Dr. Pience's Golden Medical Discovery should be taken earnestly as constitutional treatment, without which few cases can be cured, as the disease is always constitutional and must be treated accordingly. This treatment has no unpleasant features about it, and has the advantage of never driving the disease to the lungs, as there is danger of doing by the use of strong, irritating snuffs or poisonous

RICHARD JOHNSTON, Sidney.

[For the Dispatch.] Your leader of this morning on the "City Hall" question takes a just view of the subject. It is clear that something must be done to protect the judges, sierks, and people. It is also clear that our city is not financially in a condition to spend the inevitable must therefore be done, "Castle Rack Rent," condemned by judges and grand juries, must be made habitable and safe.

Can this be done? Upon the authority of one of the best practical and most successful builders in the city, in whom all these alarmed gentlemen have entire confidence, there is every reason to assert that by an expenditure of \$1,000 or \$2,000 the building can be made safe and habitable for twenty years to come.

Test this question. Let the Council at once consider it, and order the necessary re pairs. This building panic should be stopped at once for the sake of safety and "ECONOMY."

Richmond, February 7, 1874. [We detest patchwork generally. The experts, or the most of them, have given their word for it that the old building can't be patched and propped. Some other temporary expedient would be decidedly better, we believe.-Editors.]

We are anxious to know how the Petersburg papers would get along without the sen-ational items furnished them by Lynchburg .- Lynchburg Republican. "That's one of those things that no fellow can find out."

At Wabash, Ind., the other day, a city councilman traded an artesian well, 1,200 feet deep, for a steam fire-engine. The trade was declared off, however, when the agent demanded that the well should be delivered on board the cars boxed for shipment.

The writer of this remembers very well when Bishop Cummins was a Methodist circuit-rider, with a salary not exceeding \$100 per year and board .- Lynchburg Republican.
